

KIN (Kibera in Need)

Education Support

John

John is 17 years old and in form 1. He completed his primary education at Betty Academy in November 2010 and scored 317 marks out of a total 500. He was pleased with his performance although he had anticipated higher marks. He was then admitted to a public provincial secondary school in Eastern Province of Kenya. John is very happy in school and is optimistic about his future.

John has one brother and two sisters and they are orphans. Their parents (Charles and Rebecca) passed away several years back and they had nobody to take care of them. They were under the care of their older sister who was 17 but she got married and left them alone. When they are home from school the children are now cared for by their Uncle Zebedayo, who is a night watch guard. The uncle cannot afford to educate them as he is also struggling to fend for his own family so KIN has helped fund these children's education.

John's brother is also called John and the younger sister is called Josephine. They are both at Betty Academy which is a boarding school in rural Kenya. KIN helped to pay rent for a shack where they shelter whenever they are at home on holiday.

John is a very bright boy who performs well in his studies. He is very active in sports and also a big fan of football. At home, he is a member of the local football team where he practices every day with his friends. At school, he has joined the football and rugby teams and he is doing well.

John is very grateful to KIN for an opportunity to learn and achieve his dreams. He says he wants to grow up to be a lawyer.
